Advisory Team

People helping us shape our Technology

Prof. B.S. Murty

Technology Advisor

Prof. B.S. Murty, Director, IIT Hyderabad, is a leading voice in India's **critical minerals strategy,** driving national efforts on mineral exploration, sustainable extraction, and mining practices. He has forged key alliances — with CSIR-CIMFR, NTPC, and Singareni Collieries — and co-founded the **Australia-India Critical Minerals Research Hub (AICMRH)** with Monash University. He is also **President, Indian Institute of Metals**, championing self-reliance in strategic minerals like Lithium, REE, and Cobalt for India's manufacturing future.

Prof. Sai Santosh Raavi

Scientific Advisor

A Professor in the Department of Physics, IIT Hyderabad, specialising an expert in **optics, laser science, ultrafast spectroscopy, nonlinear optics**, and **advanced optical instrumentation**. He has authored 130+ journal publications, with an h-index of 30 and 3,850+ citations, and is a Fellow of the Royal Society of Chemistry and Telangana Academy of Sciences. He serves as **Associate Editor, Elsevier's Optical Materials (2024-2027)** and received the **Faculty Research Excellence Award 2024** at IIT Hyderabad.

Dr. Niranjan Myneni

Technology Strategist

A physicist specializing in **ultracold atom physics and quantum sensing**. He holds an MSc from the University of Hyderabad and a **PhD (2021)** from the Raman Research Institute, studying **ion-atom hybrid traps**. He later worked with **Vincent Josse and Alain Aspect** at Institut d'Optique on **3D Anderson Localization**. Since **March 2025**, he has been a postdoc at **Observatoire de Paris**, working on **quantum gravimetry** under the **FIQUgS** project.

Srikrishna Vadrevu

Finance & Strategy

Sri Vadrevu brings 45+ years of global BFSI leadership across State Bank of India, GE Capital, Standard Chartered, and HCL, spanning P&L, credit, and compliance roles in the US, Malaysia, and Asia. An MBA (CUNY) and NASD Series-7 holder, he founded and scaled SigMax-e and Aideotics. He now advises Mithril Atomics on finance and global market entry.

A Diverse Team led by One Vision: Make in India for the World!

Founding Team

Core members and their background

Devendra Mishra

Co-Founder & CEO

Quantum physicist, 6+ years in quantum hardware and sensing. Led India's first room-temperature Rb-based quantum memory at Qulabs; former Head of Quantum Hardware. Three patents, three quantum optics/ networking publications. IIT Hyderabad PhD candidate, building next-gen quantum sensing tech.

Rikteem Bhowmick

Founder & CTO

IIT Hyderabad alumnus, Institute Silver Medalist, 6+ years in quantum communications and device development. Former Head of Quantum Communications at QAIG; built entanglement systems, QRNGs, quantum networks. Multiple patents and publications; secured NQM funding, worked with DRDO, shaped DoT quantum tech standards and policy.

Abhijeet Ghodgaonkar

Lead-Sensor Engg.

Built NV-diamond quantum magnetometers at QMET Tech Foundation, IIT Bombay (NQM): rugged, compact units covering mechanical design, optics, and electronics for India's strategic applications. Earlier, he developed readout electronics for IIT Bombay's Daksha space mission and built FPGA-based detector readouts and firmware at CERN's CMS experiment firmware for particle detection.

Vashishtha Kochar

Lead- Software Engg.

Dual-degree IIT Bombay graduate in Engineering Physics and Nanoscience, he blends physics, quantum technology, software, and AI with entrepreneurship. He built a quantum network simulator from first principles. As CTO of SafeSquid Labs, he architected and productised Layer-7 security systems that analyse high-volume data and enforce policy, deployed across enterprises and governments.
